

OPENING STATEMENT

Ranking Member Eddie Bernice Johnson (D-TX)
Committee on Science, Space, and Technology

“Astrobiology and the Search for Life in the Universe”

May 21, 2014

Good morning. In the interest of saving time, I will forgo making an opening statement. Instead, I simply want to welcome Dr. Shostak and Dr. Werthimer to this morning’s hearing on the search for life—including intelligent life—in outer space. You both are distinguished researchers, and I know that you will have thoughtful testimony to present.

With that, I yield back.
